DETAILED ACTION

Claim Objections

Claim 3 is objected to because of the following informalities: The expression “molar ratio is and less than 25:1” should be recited as --molar ratio is less than 25:1--. Appropriate correction is required.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 4, 19, and 26 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The expression “the silica:alumina molar ratio is more than 9:1” in claim 4, renders the claim indefinite because the expression would include a silica:alumina molar ratio greater than 30:1 which is inconsistent with the molar ratio as claimed in claim 1.

The expression “the silica:alumina molar ratio is more than 15:1” in claim 19, renders the claim indefinite because the expression would include a silica:alumina molar ratio greater than 30:1 which is inconsistent with the molar ratio as claimed in claim 17.

The expression “the silica:alumina molar ratio is more than 9:1” in claim 26, renders the claim indefinite because the expression would include a silica:alumina molar ratio greater than 25:1 which is inconsistent with the molar ratio as claimed in claim 25.
